AMH 4930—Florida Environmental History Seminar-
Comparative Assignment- Due Thursday October 2\textsuperscript{nd}

This is to be a short (3-4 page) double spaced paper comparing the writing of Marjorie Kinnan Rawlings in \textit{Cross Creek} and Marjory Stoneman Douglas in \textit{The Everglades: River of Grass}. Please have a cover sheet for the paper- your name should appear ONLY on the cover sheet- This will allow for anonymity in the grading process. This paper will be worth 10 points towards your total semester grade.

You should address the following points in the paper-

1. How both authors address the Florida environment in their work
2. How both authors discuss the interaction between nature and the humans who inhabit the natural areas they are discussing
3. How the work of both authors reflects the time period in which the works were written
4. The place of these works in a history class.

You may address these issues any way you deem appropriate, as long as they are discussed in the paper. There is no need for outside sourcing, but if you quote from the works you are analyzing, please use the following format.

As Rawlings says in \textit{Cross Creek}, “Nature is beautiful” (Rawlings, 32).
32 is the page # from the Rawlings book.

If you have questions, please let me know.
Thanks
Good luck
Professor Noll
